

ALUMINUM PUCKS

Ecovery is a major supplier of aluminum products, including our newest product, aluminum pucks. The aluminum pucks are 5" tall x 6" in diameter, and weigh an average of 10 pounds. Height is customizable.

You can always expect a high quality aluminum puck, more than 99% pure. Our in-house laboratory employs strict procedures to sample each box or super sack against a spectrometer to ensure our pucks meet a consumer's specifications prior to shipping.
